WELFARE REPORT

To the citizens of the Town of Carver :

We are glad to report that our appropriations for 1940 were ample to take care of all welfare categories. January 1, 1940 we had 32 cases on Old Age Assistance. During the year we gained 14 cases and lost 7, making a net gain of 7 cases.

Our direct welfare aid will not vary but a little locally. Our last street census showed one third aliens. As in town work and our national defense program citizens have preference, we still have the inescapable alien problem to contend with. We are asking for 1941 two thousand dollars less than in 1940 and hope this will meet all requirements.

Board of Public Welfare,

ARTHUR W. PETERSON,

Chairman.

REPORT OF COUNTY AID TO AGRICULTURE

The Plymouth County Extension Service

During 1940, the Plymouth County Extension Service has performed its usual function of helping rural, village, and city people with the problems of farming, home making, and 4-H club training. Each year ever-increasing demands are being made on this organization to organize, administer, and teach programs of national, state, county, and town importance.

The agricultural department has a wide range of services for commodity groups in dairying, poultry husbandry, fruit, and vegetable culture, cranberry growing, general livestock management, forestry, and many other subjects. In each of these, special emphasis has been placed on marketing in recognition of this need with production problems more completely solved than those of merchandizing.

Close cooperation and collaboration have been maintained with local organizations and other federal agencies. Some of these are as follows: Plymouth County Farm Bureau, Cape Cod Cranberry Growers' Association, Plymouth County Poultry Association, Bristol-Plymouth Fruit Growers' Association, Satucket Dairy Herd Improvement Association, and Brockton Cooperative Egg Auction Association. The Federal Land Bank, Taunton Production Credit Association, Farm Security Administration, and the Agricultural Conservation Program.

The Home Demonstration Department held meetings in every town in Plymouth County during the past year. Emphasis was placed on home beautification, food preservation, nutrition, health and recreation. In addition to meetings, other help was given by letters, phone calls and home visits.

4-H club work not only develops agricultural and home-making ability among its boys and girls, but trains them

also in self reliance, good sportsmanship and good citizenship. Clothing, home furnishing and food projects teach girls a greater appreciation of good home and community living, while in the stock and crop raising projects boys are shown the value of modern methods as well as getting a knowledge of business.

4-H club work is a truly American idea, for all of America's youth.

The course which the Extension Service follows is largely determined by local people. Your board of trustees, town directors, women's advisory council, and commodity committeemen, have by a majority approved these programs. The service of all departments is available to everyone. The Extension Service has its place in bringing to the attention of Plymouth County people the principles of good farming, good homemaking and good citizenship.

Briefly, some of the accomplishments for Plymouth County in 1940 which may be shown statistically, are as follows:

Number of meetings conducted.....	877
Attendance at these meetings.....	26,650
Farm and Home Visits made	2,233
Number of different circular letters.....	293
Total circulation of these circular letters.....	95,656
Number of 4-H clubs.....	101
Number of 4-H members enrolled.....	1,881
No. Home Demonstration Clubs.....	115
No. women enrolled.....	2,171

The financial assistance and moral support of Carver is greatly appreciated by the people the Extension Service assists. A continuation of its support is justified on the record it has achieved. Its influence can not be measured by monetary values, but its educational programs and individual assistance constitutes one measure in the first line of national defense.

ALMIRA C. HOLMES,
Town Director.

ANNUAL REPORT OF THE SCHOOL DEPARTMENT

To the Citizens of the Town of Carver :

This year the voters saw fit to elect Mr. Bradford Cole of North Carver to the school board. This is the second change in the membership of the committee during the last six years and another new member is expected in March as Mr. Clyde Griffith has served notice that he is not seeking reelection.

The School Department now has a new superintendent of Schools, Mr. Austin, formerly principal of the Dighton High School. Mr. Austin is highly recommended and it is the hope of this Board that he will carry on to completion many liberal policies begun by his able predecessor, Mr. Donald Mattoon.

It was necessary to add another school bus to carry students to High School last September. It is expected that this will be discontinued as soon as all pupils are attending Plymouth High School.

The School Board was well pleased with the work of the committee in charge of improvements at the E. Tillson Pratt School and now plans to carry through and beautify the grounds. Plans are now being considered respecting sanitary improvements at the Centre School.

It is unfortunate that the board cannot be *constabat inter omnes*, the only happy thought in this misfortune is the fact that up to now nothing has interfered with the welfare of the children in the schools, and for the following year we are not asking for any changes involving curricula or personnel but hope to maintain what we have.

Hot lunches are now being served in all of our schools: These are partially self supporting. It is not the policy

of this board to deny lunches to any child and any deficit accrued is charged to the department.

The School board wishes to state that it received a check of \$34.66 as an adjustment on insurance and this was turned over to the town treasurer.

Respectfully submitted

Winston Bradford Leach, Ch.

Clyde D. Griffith, Sec.

MINORITY REPORT OF SCHOOL COMMITTEE

To the Citizens of the Town of Carver :

In view of the fact that I can not conscientiously agree with certain portions of the School Committee Report, and in view of the fact that there has been marked dissension among the members of the committee on various matters with respect to school policy, it would seem to me proper, even though somewhat unusual, that I present a brief statement for the purpose of calling to your attention one of the more chronic conditions about which the committee and myself are in complete disagreement.

I have observed that there is an increasing tendency for the school department to squander Town monies under the insidious disguise that "it is for the welfare of the children." This condition should be eliminated as soon as is reasonably possible. To condone or to permit such a policy to continue would, in my opinion, be tantamount to promoting inefficiency, and would also undoubtedly act as an additional incentive for the committee to enlarge the scope of its extravagance beyond immediate comprehension.

Concrete examples which will tend to acquaint you with this "guess spending", and proposals of a remedial nature which will tend to curb further waste will be advocated at the next Town Meeting.

Respectfully submitted,

BRADFORD H. COLE.

REPORT OF THE SUPERINTENDENT

To the School Committee of Carver, Massachusetts:

I am pleased to present my third annual report as your superintendent of schools.

BUILDINGS

The North Carver school building has needed reconditioning for many years. During 1940, the structure has been completely renovated. A new heating system, oil burner and furnace, with ventilating apparatus, has been installed. Modern toilet facilities connected to a new water supply have been put in the rear room. Enlarged windows replace the small ones. The whole structure, both inside and out, has been redecorated in attractive colors. Only the landscaping of grounds remains to be done. The special appropriation of \$4,700 was used to make these changes which give to pupils in North Carver excellent school facilities. The school is now called the "Tillson Pratt School."

TEACHERS

The School Committee placed Miss Florence R. Kaski in a primary position in the North Carver School last March and Miss Gertrude R. Currier was transferred to the Center School, teaching seventh and eighth grade pupils during Mrs. McFarlin's half-year absence. In September, Mrs. McFarlin returned and Miss Currier was employed as a teacher in grades one and two at the Benjamin Ellis School, replacing Miss Nellie Squire.

Miss Nellie Squire who has been an excellent teacher at the Benjamin Ellis School for the last two years, secured a position near her home and started to teach there in September.

Mr. Arnold Telfer was permitted to accept temporary employment at Camp Edwards and other work was provided for the boys in manual training.

Fortunately for the pupils of Carver, we are able to retain our most experienced teachers. Even with their best efforts it is difficult at times of community unrest for even our strongest teachers to maintain the fine type of instruction and training in studies and habits to which we hold. Townspeople should do all in their power to provide the best working conditions for their conscientious and experienced teachers.

STUDIES

The new reading system is proving its worth. All teachers are using it and the results they are obtaining are encouraging.

A handwriting system was installed this fall and we hope to train good writers through its methods.

Teachers are now studying the arithmetic situation and should participate in selecting much needed books next spring.

HEALTH

The School Nurse is continuing her visits to the homes of pre-school children, with the result that all pupils who entered grade one had fine preliminary attention.

An audiometer to test the hearing of pupils was purchased by the several towns in the School Superintendency Union. First-grade children were tested. Pupils with defective hearing have been given special seats in the room, where they may more readily hear the spoken directions of the teacher. If only one child with defective hearing is discovered so that, for him, there is no loss in instruction, the cost of Carver's share of this expense for testing apparatus is well justified. As it is, all pupils will benefit.

The school children of Carver have had the benefit of dental service in their school buildings during 1939 and 1940. Dr. Edmund F. Tobin, the School Dentist, has performed the various dental operations and has been assisted by Mrs. Mary E. Fuller, School Nurse.

The cost has been borne by parents and by the Town. Parents have contributed fifty or sixty cents towards the charge of sixty cents per dental operation. In some cases, pupils whose parents have had limited funds have been assisted by allotments from the Town Appropriation for Dental Clinic.

Parents have paid for 138 dental operations and the Town, through Dental Clinic funds, has paid for the rest. A total of 337 dental operations have been performed in the two years for 191 pupils, and by sharing the expenses, there is a balance of about \$20 in the 1940 account for dental clinic.

It appears that the Town is receiving excellent returns from its annual appropriation for Dental Clinic in that the school children are actually having their teeth cared for. It is a good investment of limited amounts of public funds.

MEETINGS

Meetings at which experts have discussed phases of arithmetic and handwriting have been held this fall. The handwriting meeting was held at the Center School, with teachers of the Union in attendance for the full day. Elementary schools were closed for that time. Later, portions of the school day were taken on three occasions for teachers' meetings in South Middleboro, at which arithmetic experts explained some of the problems incident to the selection of content and materials for primary, intermediate, and junior high grades.

At the E. Tillson Pratt School, Mr. Henry M. Shaw gave some excellent demonstrations on the use of visual and musical equipment in teaching. This was presented before the members of the Union Committee in November.

SCHOOL SAVINGS SYSTEM

In February 1940, The Plymouth Savings Bank and the Plymouth Five Cent Savings Bank cooperated with the

Carver School Department in establishing a plan by which pupils might open savings accounts through weekly or occasional deposits at the schools. A partial report of the success of this follows. It will give some idea of the number and size of savings accounts held by pupils though the plan has been in operation only eight school months and the returns are not complete.

" February 3	" October 6
" March 10	" November 3
" April 7	" December 8
" May 5	1942
" June 2	Winter
	Monday, January 5
	" February 2

Any additional dates will appear on notices on the office door.

CONCLUSION

We have tried to make noticeable improvement in the School Department during the year. Teachers have been very cooperative and have given their best efforts. Carver has good buildings, a fine corps of teachers, and satisfactory equipment, and I am grateful for having had the chance to be a working member of the School Department.

To all those who have tried to share in our endeavors, to accomplish the educational goals which we set, I offer my sincere thanks. There is much to be done by those who have the welfare of the School Department at heart. The training of children is a never-ending job and it is best accomplished by those who are patient, sympathetic, and experienced. The power to build a strong school department rests in the hands of the citizens who through their elected representatives, give expression to the kind of schools they wish to maintain.

Respectfully submitted,

DONALD P. MATTOON,

Superintendent.

SCHOOL SUPERINTENDENCY UNION NO. 47

Report of the Secretary

On April 12, 1940, the School Superintendency Union No. 47, including the school committees of Carver, Lakeville and Rochester, held its annual meeting at the Pierceville School in Rochester. Pupils of the fifth and sixth grades of the Waterman School, Rochester, gave an interesting puppet show for which they had made all of the properties under the direction of their teacher, Mrs. Gerrish. The Pierceville pupils under Mrs. Hartley, gave a demonstration of 4-H Club work in woodcraft and in lunch preparation.

Following the program, the meeting was called to order and the following officers were chosen for the ensuing year:

Chairman, Mr. Samuel H. Corse

Secretary, Mrs. Marian N. Pierce

A written report was then submitted by the Superintendent, Mr. Mattoon. After discussing the items in this report the Union Committee voted to act jointly in making the suggested changes in the Arithmetic program. This was to follow the plan of last year in selecting a Reading system, and was discussed in the last town report.

The question of purchasing an Audiometer for the use of the Union was discussed and was later voted on favorably by each committee separately. The Audiometer has since been purchased jointly by the three towns and is now in use in the schools of the Union.

On November 14, 1940, the Fall meeting of the Union was held at the E. Tillson Pratt School in North Carver. Following an inspection of the recently renovated school building there, Mr. Henry M. Shaw of the Center School, Carver, gave an interesting demonstration of modern visual and musical aids to instruction.

Mr. Mattoon then presented his written report covering the past six months, showing school aims and progress,

and the report was discussed in detail by the committee members. Joint meetings for all teachers in the Union have continued to be held throughout the year, for the discussion of mutal problems and for demonstrations of teaching. Selections of new systems have been continued. Handwriting is the latest one and Arithmetic is now under consideration.

It is gratifying to note that during the past six months all three towns in the Union have done much to improve school buildings and grounds. Both Carver and Lakeville have installed modern toilet facilities in schools, with many other improvements, and Rochester has installed a Health room and increased lighting in two rooms.

School Dental work has been put on a Union basis with one dentist in charge.

At the close of the regular business, Mr. Mattoon presented a request for release from his present contract, to take effect on or before January 1, 1941, in order that he might accept a position of greater responsibility. It was unanimously voted that this request be granted. Deeply as we regret losing Mr. Mattoon, we consider ourselves fortunate in having had his services so long. All Committee members and teachers who have had the privilege of working with him, have been helped by his unfailing cheerfulness, generous cooperation and inspiring energy.

At a special meeting on November 26 at the Assawompssett School in Lakeville, the Union Committee elected Mr. George R. Austin as Superintendent beginning January 1, 1941. Mr. Austin has been Principal of the Junior-Senior High School in Dighton, Massachusetts for the past seven years and all members of the Union Committee feel that they are fortunate in being able to secure his services.

Respectfully submitted,

MARIAN N. PEIRCE,

Secretary, School Superintendency Union No. 47

UNION COMMITTEE LETTER TO MR. MATTOON

My dear Mr. Mattoon :

At the recent meeting of School Union 47, it was voted that a letter be sent you expressing the appreciation of the Committee for the fine work and cooperation which you have given them during the time you were Superintendent of this Union.

Every Committee member who has had the privilege of serving with you has been deeply conscious of the unfailing and efficient help which you have given them at all times, and all agree that each school in the Union has been definitely improved during the brief term of your superintendency.

Please accept the thanks for the Union Committee for your cheerful and tireless efforts in their behalf, and their best wishes for your success and happiness in your new position.

Sincerely yours,

MARIAN N. PEIRCE,

Secretary School Union, No. 47.
